

ONE-PAGE LIST

8 websites that make Claude a better designer

Claude designs much better when you show it a good example first. These eight sites are free galleries of good examples. Type each address into your browser.

HOW TO USE THEM

Find one you like, show it to Claude, ask for yours

- 1 **Open a site from the list and find a design you like.**
- 2 **Take a screenshot of it.**
On a Mac: press Shift + Command + 4 and drag over it. On Windows: press Windows + Shift + S.
- 3 **Drag the screenshot into Claude and paste the prompt from the table, with the parts in [square brackets] replaced by your own details.**

THE LIST

The eight sites, with a prompt for each

SITE	WHAT IT IS	PROMPT TO PASTE
01 unsection.com	Whole page sections, sorted by type: heroes, pricing, FAQs, footers.	Look at the pricing sections on unsection.com and build mine in that style: [what you sell and your prices].
02 navbar.gallery	Navigation bars from real sites.	Here is a navigation bar I like from navbar.gallery: [paste a screenshot]. Build mine like it, with these links: [your pages].
03 cta.gallery	Buttons and calls to action.	Write and design three call-to-action blocks for [your offer], in the style of this one from cta.gallery: [screenshot].
04 footer.design	Footers that look finished.	Build a footer for my site like this one from footer.design: [screenshot]. Include: [links, contact, socials].
05 bentogrids.com	Grid layouts for showing several things at once.	Lay out my [features / services] as a bento grid like this one from bentogrids.com: [screenshot].
06 404s.design	Error pages people enjoy landing on.	Make a "page not found" page for my site in the spirit of this one from 404s.design: [screenshot]. Keep my brand colours.
07 60fps.design	Small animations from well-made apps.	Add a small animation like this one from 60fps.design to my [button / menu / card]: [describe or screenshot].
08 motionsites.ai	Animated website prompts to copy. Some are free, some are paid.	Copy a prompt from the site, paste it into Claude, then add: Change the text and colours to fit [your business].

GOOD TO KNOW

Use them for ideas, not for copying. The designs belong to the people who made them. Ask Claude to build yours "in that style" with your own text, colours and images. **Seven of the eight are free.** motionsites.ai has free prompts and a paid tier. **The prompts are starting points** we wrote for this list; change them to fit your business. All eight addresses were checked on 12 October 2026.
